

GTC 80

GTC-80 is a compact drilling machine designed for professional water well, geothermal and geotechnical applications.

- Easy transport and positioning
- Stable drilling performance
- Low maintenance requirements
- Adaptability for various job sites

GTC 80

GTC 80 is versatile drilling machine designed for both profesional and personal use.

Its robust chassis and components are mounted on caterpillar tracks, ensuring mobility and stability across various terrains.

The machine is powered by a reliable Briggs & Stratton engine.

Area of use:

- Water wells
- Geothermal drilling
- Geotechnical drilling
- Sampling
- DTH (Down-The-Hole) drilling

Compact Design – Built for Any Terrain

- Easy to transport and maneuver
- Reliable hydraulic control system
- Efficient fuel consumption
- Professional performance in confined spaces

SPECIFICATION	GTC 80
Rotary head torque	750-1000Nm
Rotary head RPM	60
Max pull up force	1500-2000kg
Max pull down force	900-2000kg
Water swivel head	Yes
Pipe feed lenght	1.5m-2m
Max drilling depth	80m-100m
Maks. drilling diameter	200mm-250mm
Power supply	Gasoline
Engine power	14-23HP EFI Vanguard
Mast slide Travel	400mm
Stabilization	3 Cylinders with block valves

Options:	
Winch	
Hydraulic wrench brake	
Core extractor	
Joystick for track
